## KM1012

Vertical Gravity Bandsaw

Experience the capabilities of E-R Maier™ KM 1012. With the first model produced over 30 years ago, it is no surprise that the KM 1012 is one of the industries leading vertical gravity saws. The rigid steel body frame is designed with a sleek and purposeful contour. Built to meet and exceed your production expectations; prepare for a sensational experience.

## REFRESHINGLY ORIGINAL.

Over three decades of experience put into each machine.
